

ENSCAPE™

## Enscape 2.9 Preview+6 Bugfixes

ID	Title	Tags
91596	Crash when Stereo Mode set to ‚Fullscreen per Eye‘ and Outlines set to 100%	Found in QA; Standalone Executable
91523	VR + Standalone = Crash	Found in QA
91667	Enabling VR when no device connected makes Renderer and CAD crash	Found in QA
90386	View Regeneration makes Revit project unusable	Reported by Customer; Revit
91551	Crash when reading data from a broken metallic material	Vectorworks
91565	Crash when saving Material Editor changes to an unsupported shader	Vectorworks
91492	SketchUp crashes when switching between materials in Enscape Material Editor	Found in QA; SketchUp
91781	Crash of VR in Standalone	Found in QA; VR
91686	Error starting Enscape Standalone Executable	Found in QA; Standalone Executable
91694	ArchiCAD crashes when placing geometry while BIM Information panel is open	Found in QA: ArchiCAD; BIM Info
91713	Projection mode is overridden on Enscape startup	Visual Settings
91773	Missing renderer strings in French	Viewport
91775	Images in Enscape License window are not localized	UI
91778	Embedded Issues are not overwritten when importing *.bcfzip	Collaboration Annotations
91788	Material names that cannot be converted to file names break model import (Custom Asset Editor)	Custom Asset Editor
91668	VR Test Plan instructions step 3 incorrect (spectator height is defined in the General Settings)	VR
90814	Customers can't update their profile/contact information in the Enscape License Center	Enscape License Center
91658	BIM search box available when the CAD does not support BIM data	BIM Info
91496	Material Editor in asset editor is missing correct default values	Asset Editor; Material Editor
91684	ArchiCAD diff update for geometry also changes Time of Day	ArchiCAD 24
91768	Enscape View List dialog needs re-opening to show correct list of Enscape Views after new View creation	Found in QA; ArchiCAD
91485	Bump Map slider is not shown in Enscape Material Editor for materials created in Rhino	Rhino
90999	Color is not saved in Enscape Material Editor when Obj Attribute is selected as Color Shader in Vectorworks	Found in QA; Vectorworks
91342	No verification for matching projects in Renderer and Vectorworks when Creating a View in one project where two VW projects are open	Vectorworks
91714	Crash during thumbnail generation of video file	Video
91562	Missing Vive controller trigger label when pointing at minimap	VR; HMD Controllers
89985	Crash / Slow loading in Vectorworks projects	Reported by customer
91489	Certain Textures used as Bump maps results in flickering in Renderer when changing Height Amount in Material Editor	Found in QA; Textures
91500	Bump/Displacement maps flickers in Renderer when changing its Height Amount in Material Editor with ArchiCAD	Found in QA; ArchiCAD; Textures
91250	Web Standalone looks broken with 4k*8k Skybox	Found in QA; Web Standalones
91310	Restmode does not work precisely with large projects	RestMode

ENSCAPE™

91325	Materials with "Water" Keyword does not show up in Renderer with ArchiCAD	Found in QA; ArchiCAD; Materials
91593	Web Standalone: Animated Shadows Missing Again	Found in QA; Web Standalone
91594	Web Standalone: Mini Map Empty	Found in QA; Web Standalone
