

ENSCAPE™

## Enscape v2.9 - Bugfixes

ID	Title	Tags
89639	Enscape and Vectorworks crash when opening Collaboration Annotations panel with an empty project where a none empty project is also open but not in focus	Collaboration Annotations; Vectorworks
89738	CAD and Enscape crash when switching from Collaboration Annotation panel to BIM Info	Collaboration Annotations; BIM Info; Found in v2.8.0
89747	CAD crashes when closing Enscape during BIM Issue creation	Collaboration Annotations; BIMTrack; Found in v2.8.0
89823	Crash when rendering an Image	Rendering
90046	Revit freezes when Synchronizing with Central with Enscape running with previously open project	Revit; Found in v2.8.1
89865	Rhino and Enscape crash when closing Renderer after opening/closing Collaboration Annotation panel	Rhino; Collaboration Annotations; Found in v2.8.0
89533	Deadlock when starting the renderer whilst it's busy disposing the license from the previous session	Rendering
90096	ArchiCAD crashes when switching from Collaboration Annotation panel to BIM Info when Material Editor is open	Collaboration Annotations; BIM Info; ArchiCAD; Found in v2.8.1
90329	Enscape cannot start because System.ValueTuple.dll is not installed	Reported by customer; Found in v2.8.1
90356	Renderer crashes when taking screenshot with unmodified Sketchup simple template	SketchUp
90373	Objects with Water Material assigned disappear from Enscape with Rhino	Rhino; Found in v2.8.1
90638	Crash when using undo/redo a lot after deleting an object	VectorWorks
90339	Enscape crashes when creating an Issue and changing the window size	Collaboration Annotation
90923	Diff Updates continue endlessly when changing an Asset that replaces more than 1 Revit Family	Revit
90956	SketchUp and Enscape crash when saving BIMTrack Issue with Confidentiality before archiving the Issue	Collaboration Annotation; BIMTrack
91050	Enscape Asset Placement is broken in Vectorworks	Vectorworks
90987	VectorWorks and Enscape crash when switching between BIM Info and Collaboration Annotations with empty project	Vectorworks
90995	Video Encoders can not be loaded during Video Export	Found in QA
91091	Framebuffer textures / GBuffer break after resizing Enscape Viewport	Rendering
91156	Certain Video Texture slows down and crashes Renderer	Video Textures; Found in v2.9.0
91309	CAD and Enscape crashes when selecting Category of Offline Assets	Offline Assets
90076	Revit freezed after Synchronization completed with BIM 360 project	Reported by customer; Found in v2.8.2
90998	VR: Crash when changing Rendering Quality to Ultra	Found by QA; v2.9.0; VR

## ENSCAPE™

91321	Video Material Stops Playing After Video Path Preview (Sketchup)	Found in QA
91596	Crash when Stereo enabled in conjunction with Outlines	Found in QA; Standalone Executable
91143	Vectorworks crashes when switching to another project after linking View to preset	Found in v2.9.0; Vectorworks
91523	VR + Standalone Executable = Crash	Found in QA
90386	View Regeneration Makes Project Unusable	Reported by customer; Revit
91551	Crash when reading data from broken metallic material	Vectorworks
91667	Enabling VR when no device connected makes Renderer and CAD crash	Found in QA
91492	SketchUp crashes when switching between Material Type in Enscape Material Editor	Found in QA; SketchUp
91686	An Error occurs when starting Enscape Standalone Executable	Found in QA
91694	ArchiCAD crashes when placing geometry while BIM Info panel is open	ArchiCAD; Found in QA; BIM Info
91781	A crash would occur when using VR in Standalone Executable	Found in QA; VR
91658	BIM search box available when the CAD does not support BIM data	BIM Info
90814	Customers can't update their profile/contact information in the License Center	License Center
91713	Projection mode is overridden on startup	Visual Settings
91773	Missing renderer strings in French	UI
91775	Images in Enscape License window are not localized	Localization
91778	Embedded Issues are not overwritten when importing *.bcfzip	Collaboration Annotation
91714	Crash during thumbnail generation of video file	Video
91684	ArchiCAD diff update for geometry also changes time of day	ArchiCAD
91768	Enscape View List dialog needs a re-opening to show correct list of Enscape Views in ArchiCAD	ArchiCAD; Found in QA
91485	Bump Map slider is not shown in Enscape Material Editor for materials created in Rhino	Rhino
90999	Color is not saved in Enscape Materials Editor when Obj Attribute is selected as Color Shader in Vectorworks	Found in QA; Vectorworks
91342	There is no verification for matching projects in Renderer and Vectorworks when Creating a View where two or more projects are open at the same time	Vectorworks; Views
91562	Missing Vive controller trigger label when pointing at Minimap	VR
91167	Enscape Visual Settings Presets are not saved in ArchiCAD projects	ArchiCAD; Settings Presets
89985	Crash / Slow loading in Vectorworks project	Reported by customer
90327	Watchdog timeout during batch rendering of scene	Rendering
91312	Crash when initializing NVIDIA video decoder	Found in QA
91489	Certain Textures as Bump map flickers in Renderer when changing its Amount in Material Editor	Found in QA

ENSCAPE™

91500	Bump/Displacement maps flickers in Renderer when changing its Amount in Material Editor with ArchiCAD	ArchiCAD; Found in QA
89843	Changing document or renaming a material during full export causes missing Enscape materials	Vectorworks
91000	Reflectivity - Metallic is transferred wrongly to Enscape Material Editor from Vectorworks	Found in QA; Vectorworks
90962	Vectorworks: Favorite Views are not updated	Vectorworks; View Management
91347	Bump map Amount slider disappeared from Enscape Material Editor	UI
91359	Video Textures in Revit are not rotated correctly	Revit; Textures
91250	Web Standalone looks broken with 4k*8k Skybox	Found in QA; Web Standalone
91310	Restmode does not work precisely with large projects	Animation
91325	Materials with "Water" Keyword does not show up in Renderer with ArchiCAD	Found in QA; ArchiCAD; Textures
91593	Web: Animated Shadows Missing Again	Found in QA; Web Standalone
91594	Web: Mini Map Empty	Found in QA; Web Standalone
91392	Emissives in Web Standalone broken	Web Standalone
91061	Displacement Map breaks Material in ArchiCAD and Vectorworks	Found in QA; ArchiCAD; Vectorworks
91155	Video (AVI+mpeg4) is considered as invalid Texture and not reflected in Renderer	Video Textures
91315	Video decoder skips frames	Video
90721	Watchdog timeout while resizing huge texture	Textures
90837	Emissive geometry flickers (z-fighting style)	Reported by customer; Rendering
91117	Enscape videos cannot be used as video textures	Video
91159	Error during listing BIM Track Projects	Collaboration Annotation BIMTrack
90330	Animated shadows disappear in Web Standalone	Web Standalone; Rendering
90364	BIM mode gets activated even though the Material Editor is open	BIM Info
90401	Standalone Executable crashes when switching to Stereo Mode	Standalone Executable
90642	Mirror Shader Value are ignored in Enscape Material Editor	Vectorworks
90681	Clearcoat Material Type is not interpreted right in Vectorworks	Vectorworks
90619	Explicit transform is sometimes applied as a scale factor and sometimes as lengths	Vectorworks
90668	"Clearcoat" Material is interpreted as Frosted Glass in ArchiCAD	ArchiCAD; Found in v2.8.1
91267	Bump/Displacement map would flicker on frequent Amount change	Rendering; Textures

ENSCAPE™

90324	Crash exporting video with certain wav file in convertSoundBufferToVideoEncoderSoundFormat	Customer Feedback; Found in v2.8.1; Video; Audio
89983	SketchUp crashes when re-opening Enscape Custom Objects window with Sound Source still selected	Reported by customer; SketchUp; Custom Objects
90838	SketchUp crashes when selecting linked model	SketchUp; Proxies
90355	Project Name not displayed in Standalone Executable	Standalone Executables
90379	Settings are not displayed in Standalone Executables	Standalone Executables
90328	Artifacts in tiled lighting pass with tiles containing > 256 area lights	Rendering
90426	Low grass looks "patchier" than before	Found in v2.8.1; Rendering
89914	Custom Attributes are not listed in Enscape when creating BIMTrack Issue	Collaboration Annotation; BIMTrack
90142	Assets can be placed during batch rendering	Asset; Rendering
89606	CAD crashes when closing it while being in Keyframe editing mode	Video
89984	Panorama is too slow (with animated vegetation?)	Found in v2.8.1
89581	Export extremely slow with small project containing many 3 point polygons	Reported by customer
89872	Out-of-memory errors in 2.8 in scenes that worked previously	Reported by customer; Found in v2.8.1
89873	Deadlock in physics when updating light data	Lighting; Rendering
89807	Enscape Plugin not able to connect to Asset Library Web Service when RAAPSII Plugin is installed	External Dependencies; Reported by customer
89580	Saving an Embedded Issue saving results in Enscape hanging when saving Issue before Panorama/Batch rendering	Collaboration Annotation
89614	ArgumentOutOfRangeException when saving a comment to an Embedded Issue	Collaboration Annotation; Found in v2.8.0
91005	Renderer would fails on startup	Rendering
91218	SketchUp becomes unusable with Rest Mode disabled	Found in QA; Found in v2.9.0
90787	Height Amount/Intensity slider and Type selection are missing from Material Editor	Found in QA; UI; Vectorworks
89603	Animated vegetation shadows prevent web renderer from Rest Mode convergence	Web Standalone
89540	Some HDRI skyboxes lead to overbright results	Skybox; Redering
89537	Animated vegetation not compatible with web shadows culling	Web Standalone; Assets
